# GOOD LOOKING AND GOOD VALUE!

AMERICAN MANUFACTURED WATER TREATMENT VESSELS FROM ENPRESS AT COMPETITIVE PRICES

Made in Ohio using a flexible and innovative process, The High Quality Enpress pressure vessels meet or exceed all the performance requirements for composite vessels, with considerable savings against other leading brands.

A tough, inert polypropylene liner is fusion welded to injection moulded ends then glass wrapped for maximum strength. Each industrial size vessel is supplied complete with a rugged polymer base to cope with any duty

- |   |   |
|---|---|
| ● High Precision manufacturing          | ● Glass filled threaded inlet is mechanically and chemically bonded to the dome |
| ● 10 bar operating pressure             | ● Standard 2.5" inlet   |
| ● 50 C operating temperature            | ● Sturdy base   |
| ● NSF Standard 44 approved              | ● Outstanding resistance to chemicals   |
| ● CE Conformity 97/23/EC                | ● Polypropylene liner   |
| ● Tested at 250,000 cycles (0-10 Bar)   |   |
| ● Temperature tested at 1000 hours @65C |   |

Stock Code	Size (diam x height)	Gross Volume	Typical Softener - Working volume	Enpress Price	European Equivalent	Saving
TEFG1035	10" x 35"	38.9 litres	30 litres	<b>£35.97</b>	£47.90	<b>£11.93</b>
