# New Products From Euraqua

## Dosing Sets

Dosing sets from 2.5ml to 940 litres per hour & Dosing tank from 30 to 1000 litres.

The dosing pump allows continuous dosing thus eliminating the chemical concentration variations associated with traditional pulse dosing.

Optional external control and chemical alarm. Please contact us with chemical and flow rate information for a quote.

## Booster Sets

Pressure booster sets incorporating an expansion vessel, pressure switch, pressure pump and controls.

Available for permeate and feed water applications.

Please call us with water quality, pressure & flow rate requirements for a quote.

## Twin Conductivity

We can build ROs with twin conductivity cells for before and after monitoring. Can be used to determine percentage reduction or to measure the conductivity before and after a mixed polisher.

Please contact us with flow rates and water analysis for a quote.

## Brackish Water RO

RO with more membranes for dirty water applications or flow rates in excess of the standard range. Please contact us with application water analysis for a quote.

## Stainless Steel Systems

Stainless steel tank and pipe sets for steam regeneration (carbon), hygienic systems or hot water systems for periodic sanitisation.

Please contact us with your requirements for a quote.

In order to minimise time spent on site we can supply pre plumbed boards built to your requirements. The example below incorporates a softener bypass, water meter, dosing pump, filter bypass, sample port, filter and pressure gauges.

Please contact us with your requirements for a quote.

## Plumbing Boards

### Price Increases for dosing tanks

Due to recent, unforeseen raw material costs on these products we unfortunately need to adjust our prices over and above the 2008 price list. Please let us know if you would like us to e-mail you the revised pages.

### New Resin—Purolite PD206

Used for final bio-diesel purification  
Removes residual glycerin, water and trace methanol  
Neutralizes catalyst and removes soap

Please note that our new e-mail address for placing orders is: [orders@eur aqua.co.uk](mailto:orders@eur aqua.co.uk)

Order acknowledgements can be e-mailed
