

Developments To Our Range Of Compact Reverse Osmosis Plants

Our existing RO range has been extended recently with a number of innovations.

Combined Water Softening, RO and De-mineralisation Plant

This RO is built on an extended skid to house a water softener and a mixed bed de-min polisher unit.

- Footprint: 1.55 meters x 0.75 meters
- Power supply: Single point, single or 3 phase to order
- Water Quality: <0.5 micro siemens
- Please call for prices

Combined Duplex Softener and RO

An extended skid is also used on this unit which houses a duplex softener.

- Footprint: 1.55 meters x 0.75 meters
- Power supply: Single point, single or 3 phase to order
- Water Quality: Approx 10 micro siemens
- See prices below

Model	Min RO Output	Softener	Price
CS2000/20SE	250lph	Duplex 20 litre SE	£4838
