

B

Series RO

The New B-Series range of Reverse Osmosis Units

Introducing the B-Series range of Reverse Osmosis units from Euraqua UK. Based on our very popular Compact range, we have reduced the complexity and therefore the cost of these proven machines. This makes them particularly suitable for less critical cleaning applications where a simple, efficient, good value unit is required.

Features

- EWS 3015 controller
- Hydranautics ESPA 1 membranes
- 304 stainless steel skid W: 400mm D:575mm H:1300mm
 - Recirculation
- 20" carbon input filter
- Pump pressure gauge
- Low pressure switch for pump protection
 - Inbuilt flush & rinse functions
 - Low noise
 - On/off switch

Model	B1000	B2000	B4000
Output	150 lph	300 lph	600 lph
Input	200 lph	400 lph	800 lph

From the market leaders in water treatment

Euraqua UK

MARKET LEADER in water treatment technology

.....Because we employ the best technical staff in the business

D

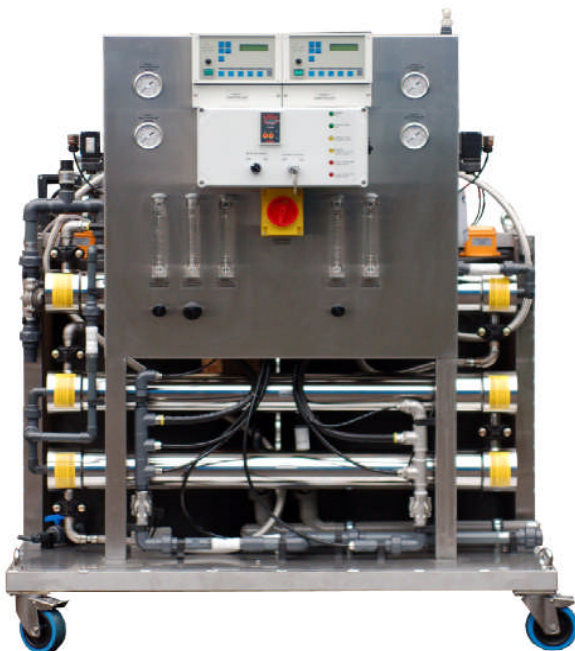

Series RO

The New D-Series range of double pass Reverse Osmosis Units

Introducing the D-Series range of double pass Reverse Osmosis units from Euraqua UK. Using a new range of immersible pumps from Grundfos and an innovative design, we have developed a small-footprint double pass RO. This will produce a permeate quality of less than 1 micro siemens from towns mains softened water.

Features

- High pressure protection
- Integrated dosing pump & safety interlocks
 - Skid inc feed & intermediary tanks
 - EWS controller with inbuilt rinse function
- Two conductivity cells showing water quality at each stage
 - Inbuilt divert valve to guarantee water quality
 - ESPA membranes
 - Adjustable recirc (first stage)
 - Adjustable concentrate (both stages)

Model	D 4-10	D 4-20	D 4-30	D 4-40
Output	450 lph	900 lph	1350lph	1800 lph
Input	600 lph	1200 lph	1800 lph	2400 lph
Width	1300mm	1300mm	2500mm	2500mm
Depth	1100mm	1100mm	1100mm	1100mm
Height	1700mm	1700mm	1700mm	1700mm
