Unbeatable Water Treatment Service

PRODUCT UPDATE

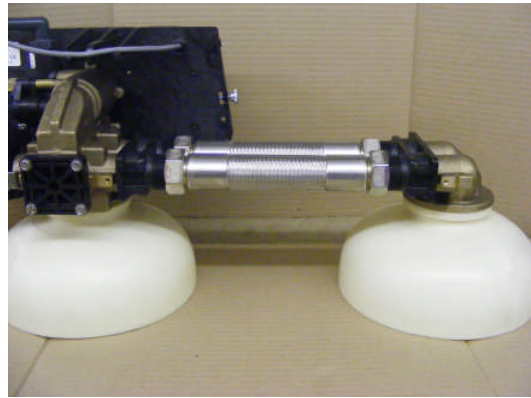

9000 Valve Interconnecting Hoses

We have changed the interconnecting hoses on the 9000 valve as shown below with immediate effect:-

OLD DESIGN

NEW DESIGN

The benefits of this are:-

- The 200 mm hose used on upto 60 Litre units gives a saving of **£29.27** we will pass this on immediately.
- The 400 mm hose used on 75 to 150 Litre units gives a saving of **£36.37** we will pass this on immediately.
- Both ends are Female Swivel nuts making connection easier and quicker
- Pressure rating is upto 10 barg at 90°C, for hot water systems brass manifolds are required.
- We can get custom length or a Nitrile Rubber Insulation on request.

Materials of Construction

- Nuts & Inserts Brass Nickel coated
- Ferrule Stainless Steel 304
- Washers Green Fibre
- Inner Liner EPDM
- External Braid Stainless Steel 304
