## Unbeatable Water Treatment Service

### PRODUCT UPDATE

#### Domestic Softeners

New Year New Domestic Options, why not try one of our new domestic ranges either Mains Free or £'s saving your choice.

#### Main Free Softeners

Try our Mains Free Softener without the hundreds of springs, washers and widgets you get with volumetric softeners. Available as either time clock or metered in 7 to 14 litre range, the power for the unit is supplied by 2 off 'D' style alkaline batteries with 3 years life. The main advantages are

- No Mains Supply required
- Low height (80 mm shorter than either a Fleck 5600 or Autotrol 255)
- Sample ports on bypass arrangement
- Injector, Drain line and brine line flow controllers all combined into 1 easily accessible moulding making servicing quicker and easier.

Please see attached price list page

#### £ Saving Pisces Range of Softeners

By sourcing and combining the most economical, reliable profession water treatment components we have been able to come up with a range of domestic softeners that still give you all the functionality but at a fraction of the price. The softeners come in the range 4 to 30 litres either metered or time clock all with electronic timers. The cost over the most economical softener available at the moment is between 25 and 40% lower giving a **£ 70 to £ 80 saving** depending upon the model chosen
